We are looking for a world class **Game Tester** who has an eye for detail & can test our new & existing games for quality assurance. We are looking for fun, energetic people who have a passion for building great products and bringing our games to life. So, if you think you have the chops to deliver something unique, come join us!

Responsibilities

- Identifying the different bugs in new & existing games by following the company's processes.
- Isolating bugs i.e. finding steps to reproduce for identified bugs.
- Compiling the bugs in a database or in given documents with a precise description of the encountered issues so they can be easily identified and reproduced.
- Respecting the planning and the deadlines.
- Communicate bugs/issues to the concerned person in the team.
- Follow-up of the versions from scratch to end of project.

Requirements

- Basic knowledge of computers OS/Office.
- Love & passion for mobile games.
- Ability to work and coordinate with the team on projects.
- Knowledge and hands on experience in QA methodologies and tools is preferred.
- Knowledge of Unity3D game engine and game development is preferred.
- Prior experience in game testing & QA is preferred.
- Strong analytical and observation skills.
- Enthusiastic and highly organized
- Excellent written and verbal communication skills.
